South Caicos Shipment - Peaches

Contributed by Jane Friday, 06 March 2009

There are more Islands that make up The Turks and Caicos Islands other then the one that we are based on called Providenciales.

We take pups in from all the Islands if we can. These beautiful puppies came from an Island called South Caicos. A lovely family that live and work on Sounth Caicos contacted us to ask if we could take a beautiful new litter of Nine puppies into care.
